Photos represent Tokheim Premier B and Premier C dispensers compatible with iX Pay Secure Payment Upgrade Kits. Narrow Body fuel dispensers measure 30", Wide Body measure 45". iX Pay retrofit kits are not compatible with existing cash acceptor systems. iX Pay retrofit kits do not change physical hose pump configurations. For WayneTRAC support upgrade kits contain new mounting components and panel and use existing WayneTRAC components. The iX Pay upgrade kit uses the Dresser Wayne CAT protocol compatible with most industry POS systems, while leaving the Tokheim pump protocol intact. Please consult your Dresser Wayne distributor or sales representative for site connectivity details, as these can vary for different POS and forecourt controller devices. Upgrade kits for Premier B models include updated bezel adjustment panel for profile alignment and Premier C narrow models include a modified door frame.

About Dresser Wayne

Dresser Wayne is one of the largest business units of Dresser, Inc., and a global leader in the design, manufacture, and servicing of fueling forecourt solutions where reliability and uptime are critical. Dispensers, payment platforms, control systems, and technology from Dresser Wayne play an essential role in traditional and alternative fueling sites around the world.
